

RABBIT WELLNESS SCREEN PROGRAM

Complimentary CBC and Chemistry profile (\$215.95 value)

Putnam Veterinary Clinic is offering **free Wellness Blood Work with a paid Physical Exam** for qualifying rabbits for a limited time (through Dec 31, 2016)

- Samples will be sent to a reference diagnostic laboratory, with results available within 2 days
- Results will be compiled as part of a study to establish reference interval data in rabbits
- Informed owner consent is required to enroll your rabbit
- Data collected from this program will be directly beneficial to your rabbit and will also help many other rabbits in the future
- The blood draw can be scheduled if sedation is needed (*cost of sedation and daycare not included*)

Participation Criteria:

- Healthy (as determined by a veterinarian) adult rabbits between 1 and 8 years of age
- Rabbits of all breeds are eligible to participate
- Both intact and neutered male and female rabbits are eligible to participate

Allowable therapies:

- Oral/topical parasiticides (e.g. Revolution)
- Sedation by veterinarian (if needed for nervous rabbits, before a spay/neuter, etc.)

Exclusion Criteria: history of acute and chronic diseases, current drug therapy (not including parasiticides) may exclude your pet from this program. Any questions regarding these conditions can be discussed with your veterinarian.
